Basic data of the subject		
Academic Unit:	Faculty of Architecture, Design and Wood Technology	
Subject title:	Interior Design from Wood Products	
Study level:	Master	
Subject status:	Mandatory	
Years of study:	I	
Number of hours per week:	4	
Value of credits - ECTS:	6	
Time / location:		
Lecturer of the subject:	Prof. Dr. Sulejman Meta	
Contact details:	sulejman.meta@ushaf.net	
Subject description:	The subject will go through the relevant examples: definitions, presentation and development of interior design, interior space boundaries, interior perception, concept and program, interior typology, shaping, design technology and practical materialization to be realized through project tasks.	
Purpose of subject:	The purpose of this subject is to give knowledge to the students to become familiar with the basics of the interior and to gain basic knowledge in the interior design process, depending on the requirements set out in the design task.	
Expected learning outcomes:	 After completion of this module, students will be able to: Design an interior design project with a wood products, Understand, recognize and apply the most appropriate interior design methods, Assess the phenomenon of the world's design trends and also implement them, Understand and practically read the ablemade projects of the designed interior and implement them in their practice. 	
Contribution to student workload (which should correspond to the students learning outcomes)		

Lectures		2	15	30
Theoretical / laboratory exercises		2	15	30
Practical work		2	15	30
Contacts to the Lecturer / Consultations		1	1	1
Field exercises				
Tests, student seminars		2	2	4
Home work		2	7	14
Time of self-study (in the library or home)		2	15	30
Final preparation for the e	xam	3	3	9
Time spent in assessment (tests, quiz, final exam)		2		2
Projects, presentations, etc		3	1	3
Total				153
